Experience Salon-Grade Hair Quality Improvement At Home

Formulated with **ACID** and **HEAT** treatment ingredients

ACID		HEAT
Straightening treatments like "TRUEST" use the power of "acid" to correct the disrupted bonds of hair protein caused by damage.		Fix the bond of the damaged hair protein with the power of "ACID" to straighten the hair, and fix it with the power of "HEAT" from the hair dryer or hair iron.

Acid-heat TR ingredients straighten hair with imine bonds; heat enhances for smoothness.
